H. T. Inman to Be President of the Georgia
Central.—T. P. O'Connor, M. P., on the
South—Jay Gould Fired—General Sherman's Estate Worth Only \$2,500.

NEW YORK BUREAU.
RICHMOND DAILY TIMES,
New York, Mar. 4, 1891.

The Louisville and Nashville bonds recently offered for subscription are stated to have been all taken, most of them going to European investors.

Today's weakness in Richmond Terminal collateral trust stocks was probably due to the death of Mr. John H. Hall. Mr. Hall is said to have been a large holder of Terminal stocks and bonds, and the fear that they might be thrown on the market caused the selling.

THE GEORGIA CENTRAL PRESIDENCY.—Wall street authorities confirm the report that the president of the Georgia Central Railroad and Banking Company has been offered to Hugh T. Inman of Atlanta. The popular delay of John H. Hall, however, will probably delay Mr. Inman's consideration of the offer for several weeks.

The Georgia company's railroad is leased to the Richmond Terminal Company.

Hugh T. Inman is a younger brother of President John H. Inman of that company.

NO ORGANIZATION YET.

Wall street is becoming sceptical as to the expected reorganization of the American Loan and Trust Company. Mr. Sage today said that the men who proposed to reorganize the American Loan and Trust Company had not yet secured a statement of the value of the securities held by that institution.

THE SPEAR FRONTIER.

The big sugar refineries of Havemeyer & Elder in Williamsburg and Matthiessen & Co. in Jersey City, are in bond converting raw sugar to refined sugar in anticipation of the act which makes the latter profit duty free on and after April 1. More than one million barrels of refined sugar are to be turned out this month by these two refineries, and three others owned by the same group, which are to commence running next Monday.

The agent of the West Virginia railroads has reported that his company has a contract with the steamer for the transportation of 360,000 barrels to points in the West, where it will be ready for delivery to consumers April 1.

Collector Erhardt today appeared from the eligible list of clerks thirty temporary storekeepers, who will oversee the work of refining in bond and transportation for the Government. They will be on duty night and day through the month.

EFFECT OF THE COURTESY ACT.

Richard Walton Gilder, editor of the Century magazine, said today of the passage of the Copyright Act and its probable effects: "The general effect of the new law will be to improve the conditions of authorship throughout the world. Its tendency will be to increase all literary values. That is, authors will have a wider market for their wares, and by the removal of the illegitimate side of publishing, the publishing business will be strengthened and improved, and this will also be a good thing for the producers of literature."

His two eldest sons to-day made application for letters of administration upon the estate of their father, General Sherman, for their four sisters.

The General's personal estate does not exceed \$2,500.

JAY GOULD FINED \$250.

Judge Martin in the Court of General Sessions to-day imposed fines on eighteen delinquent jurors, among whom was Jay Gould. It was Mr. Gould's second offense, and he was fined \$250.

In June last Mr. Gould was summoned for jury duty, but did not respond. On this occasion he was fined \$100.

MIL. O'CONNOR ON THE SOUTH.

The Times correspondent had a pleasant chat with Mr. T. P. O'Connor, M. P., before he sailed for Europe on the steamship Spires this morning. Mr. O'Connor desired to be kindly remembered to Dr. Thomas Nelson Page, and those others who gave him such a hearty welcome during his brief visit to Virginia. On his return to England Mr. O'Connor intends starting a paper which he will name the Sun. He expects to have his plates complete so that the first issue will appear about April 12. The paper will be devoted to politics, literature and finance. Several attempts have been made to buy the investment of European capital in American enterprises.

Mr. O'Connor was greatly pleased with his recent visit to the South, and speaks very highly of the early improvement of that section of the country. He will devote considerable space in his new paper to the subject in order to point out to capitalists the many and valuable advantages the Southern country affords for profitable investments.

THE SUN'S BRIGHT FUTURE.

The reasons why he thinks this country such a splendid field for investment are as follows: an orderly people, vast undeveloped agricultural, mineral and manufacturing resources, and an hourly increasing population. In addition to publishing his paper, Mr. O'Connor intends resuming his own work as a correspondent in London for a syndicate of American newspapers. When asked his views on the foreign situation he said: "When I return home I intend sending by cable a letter over my own signature giving a clear and impartial description of the situation in Europe. I may venture to make suggestions as to the course of the sympathizers with Ireland in this country in regard to affairs there."

COMING FOR THE IRISH FUNDS.

Among the passengers on the incoming steamer of the White Star Line is Dr. J. F. Fox, M. P., for the Tullamore district of Kings county, Ireland, who is coming to America to raise funds for the relief of starving tenants on the Pottonson estate.

LETTER FROM JOHN WESLEY.

A most interesting feature of the recent Wesley centennial meeting at the Methodist Book Concern, was the presentation of an anonymous letter, written by an English West Indian, Mrs. Mary Marsden, of Worcester, England. The letter was presented by Bishop Edward Wilson, D. D., of the Reformed Episcopal church, and is as follows:

My Dear Sister.—If I live till spring and should have a clear passing call, I am anxious to embark for America as for Ireland. All places are alike to me. I am attached to home in particular. Wherever ye work of our Lord is to be carried on, that is my place for today, and we live only for to-day. It is not our part to take thought of tomorrow. You must expect to fight your way through.

But I think the preachers understand you can needs yr report, and so do most of the sisters. What forces, then, can Satan raise up against you? You can speak to me without reserve, for you know that I love you much. Abundance of deficiencies must remain, as long as the soul remains in this house of clay. So long ye corruptible body will more or less darken and press down ye soul. But still your heart may be all love, and love is ye fulfilling of our law. Still you may rejoice moreover. You may joy without ceasing, and in everything give thanks. Peace be multiplied unto you. I am, dear MARY, your affectionate brother,

J. WESLEY.

GOVERNOR HILL'S DILEMMA.

Many Republicans are confident that President Harrison will call a special session of the United States Senate within a fortnight, and many Democrats declare that Mr. Hill will decline to go. In the event of his refusal to present himself, the Republican Senate will pass a resolution demanding his resignation as Governor, and insisting that he shall represent the State in the United States Senate, or resign the office. From those politicians who have conversed with the Governor, the information is given that he does not propose to remain where he is until next December. Still the Executive chamber will not meet to leave the Executive chair till after the Legislature adjourns whether there is a special session of Congress or not. He would prefer to let one of the United States Senators remain empty, rather than let Lieutenant-Governor Jones hold the reins of State during the summer months and the fall campaign.
